

# GIN EXPERIENCE

## GIN

*Gin is provenance; it looks to the natural world for flavour, aroma and sensation. Gin is the quintessential cocktail ingredient, and since the turn of the twentieth century has been a bartender's favourite cocktail spirit. It is a beacon for sophistication and style, yet is founded upon mayhem and grit. Gin is a delicious spirit; it runs the gamut of fresh, vibrant and zesty, to floral, soft and delicate.*

## THE GIN GARNISH GUIDE

*Every gin has its own flavour profile and your choice of garnish can make or break your gin and tonic. Garnishes typically either match and harmonise with a gin's key flavours or contrast and balance them. For example, Boodles Gin includes no citrus botanicals in the distillation in anticipation of being served with a lemon garnish. We've given accessible options and two suggestions where possible, based on our tastings and the distiller's suggested 'perfect serve'.*

*Ultimately there is no 'correct' choice of garnish or 'perfect serve' and it comes down to your own preferences, so take this guide as a starting point and the beginning of your experiments on how to serve each gin!*
