WELL-BEING RITUALS

For centuries, holistic rituals have been utilized to enhance well-being, prevent illnesses, or promote relaxation. Immerse yourself in the beauty of nature while you enjoy the unique refreshing qualities of the rainforest around you.

MALAY WELLNESS JOURNEY MANDI EMBUN

7 HR	MYR 1,220
130 MINS	MYR 280

For centuries, the Malays have been practising a natural ritual of wellness and longevity called **Mandi Embun** (loosely translated as ‘bathing in the morning dew’ or ‘forest bathing’). Research from Japan shows measurable health benefits resulting from the phenomenon of forest bathing. Our holistic practitioners have developed this ritual further, by combining it with other ancient forms of well-being to create a comprehensive ceremony that will leave you deeply refreshed and re-energized.

Your ritual will start with a sensory journey into the rainforest surrounding Langkawi’s Machincang mountain formation. The walk ends at the edge of a forest stream where you will be led through some light breathing and stretching exercises. Then immerse yourself in the cooling waters of a crystal-clear jungle stream; this is the **Mandi Maul Hayat** ritual, the ‘bathing in the water of life’, believed to regulate your circadian rhythm to promote better sleep and increase your sense of well-being. Light refreshments will be served before you start your trek back out of the forest, across the stream, and over gentle hills and valleys.

Follow the Mandi Embun ritual with a re-invigorating Urut Melayu massage at The Spa, designed to help loosen sore muscles and encourage healthy blood flow. Then end this blissful journey by indulging in a specially tailored nutritional spa meal, created around the concept of the **Enam Rasa**, the six taste sensations including hot, sweet, sour, salty, bitter and astringent.
