

GIN EXPERIENCE

GIN

Gin is provenance; it looks to the natural world for flavour, aroma and sensation. Gin is the quintessential cocktail ingredient, and since the turn of the twentieth century has been a bartender's favourite cocktail spirit. It is a beacon for sophistication and style, yet is founded upon mayhem and grit. Gin is a delicious spirit; it runs the gamut of fresh, vibrant and zesty, to floral, soft and delicate.

THE GIN GARNISH GUIDE

Every gin has its own flavour profile and your choice of garnish can make or break your gin and tonic. Garnishes typically either march and harmonise with a gin's key flavours or contrast and balance them. For example, Boodles Gin includes no citrus botanicals in the distillation in anticipation of being served with a lemon garnish. We've given accessible options and two suggestions where possible, based on our tastings and the distiller's suggested 'perfect serve'.

Ultimately there is no 'correct' choice of garnish or 'perfect serve' and it comes down to your own preferences, so take this guide as a starting point and the beginning of your experiments on how to serve each gin!

THE BITTERS BY THE BITTER TRUTH

In the golden age of the American cocktail, bitters were an essential ingredient and there were a vast array of flavours to choose from. Bitters complement and embellish the flavour of well-made mixed drinks and they were carefully crafted with this in mind. Enhance your drinks with couple dash of The Bitter Truth, it provides balance and depth.

Aromatic

Bogart's Bitters

World's first mentioned bitters in cocktails – Classic Martinis dating back to 1862. A delicious mix of dark spice, chocolate, coffee and herb notes makes this an engaging and refined addition to any cocktail.

Savory

Cucumber Bitters

These fresh cucumber notes are accompanied by a light bitterness and herbal notes of rosemary, thyme and lingering floral notes of summer blossoms. With a golden amber colour, these bitters are peppery, with earthy fruity curious aromas of marinated cucumbers and fleur de sel and squash finish.

Fruity

Orange Bitters

A traditional marmalade scent sets off act one on the nose. This is followed by a cacophony of clove, cinnamon and nutmeg. At first taste, cardamom and caraway make an entrance and then bow out with true orange peel oil.

Lemon Bitters

Has a decadent aroma of hot lemon tea with honey. Fresh, fruity and dense with spice, this little blonde has sherbet flavours mingling with coriander seed and a light touch of toasted cardamom.

Grapefruit Bitters

Bright, complex citrus. A dominant grapefruit aroma and flavour mellows into the vegetal green flavours of hops. Great for citrus-heavy drinks that may otherwise feel dull or overly sweet.

Tonic Bitters

Made to provide an authentic Gin and Tonic experience. The combination of grapefruit, Sicilian lemon, lime and Seville oranges merge perfectly with hints of juniper berries, orris root and Japanese green tea leaves.
